

## PROPOSED SOUTH EAST BUS CHANGES BY ROUTE

- Transport for NSW has developed an integrated transport network in Sydney's South East, designed to improve how customers move around the local area and travel between major hubs such as Sydney CBD, Central station, Randwick, Kingsford, and Taylor Square.
- An integrated network plan for Sydney's South East has now been developed to provide much needed capacity for customers as well as to support existing and emerging travel patterns.
- Following community feedback on this proposed integrated network plan, changes to bus services will be introduced in late 2021.
